

## Seller's Information

### Getting Started

To become a consignor or to volunteer, sign up at [www.myconsignmentmanager.com/creekside](http://www.myconsignmentmanager.com/creekside).

The cost to consign is \$10.00 payable by PayPal, cash or check. If using PayPal you will be activated immediately in the My Consignment Manager (MyCM) so that you are able to start entering items right away. \*IMPORTANT: If you do not pay by PayPal, you MUST email us at [mopscs@creekside.net](mailto:mopscs@creekside.net) with your name, seller number and the method that you will be paying so that you can MANUALLY be activated once your payment is received. The system will not allow you to enter items into our sale (or transfer them) until you have paid through PayPal or are activated.

Registration is non-refundable and non-transferable.

Seller numbers: At the time of registration, you can now select your own seller number from 1-4 digits in length. The system will check your chosen number's availability, and as long as that number is not taken, it can be assigned to you. You will not be able to change this number once you have completed registration. If you need assistance with your seller number, please contact us at [mopscs@creekside.net](mailto:mopscs@creekside.net).

All items are entered into inventory using the online computer system, My Consignment Manager (MyCM). MyCM takes the place of handwritten tags. All of your item tags, as well as all reports regarding inventory, will be generated through MyCM. Tags MUST be printed on cardstock paper in white or pastel colors ONLY.

***\*\*Maximum number of total items per consignor is 350. Maximum number of clothing items per consignor is 150. Clothing items in sizes Newborn through 9 Months will be limited to 75 per seller. Shoes and maternity clothes do not count toward this number.\*\****

Consignors will receive 70% of the selling price per item sold on items selling up to \$99. For individual items selling for \$100 or more, the consignor will receive 80% of the sale price on that single item. The 30% or 20% of the sale price that goes to Creekside MOPS is a tax-deductible donation that benefits Creekside MOPS Ministries.

*Materials to have on hand to get consignment items ready for the sale:*

Hangers, card stock paper (white or pastel colors ONLY), safety pins, Ziploc bags, clear packing tape, rubber bands and Scotch tape.

### Quality Control & Acceptable Items to Consign in the Fall/Winter Sale

**Acceptable items** include gently-used fall and winter seasonal clothing items, shoes, baby and kids' furniture, rugs, bedroom and playroom decorations, outdoor toys, toys in great condition with all applicable parts, working electronic games and toys with working batteries, strollers, highchairs, bouncy seats, jumpies, swings, ride-on toys, books, DVDs, CDs, puzzles and Lego sets containing ALL pieces, games, children's accessories, maternity clothing, Halloween, Valentine's and Christmas items. Stuffed animals and cloth dolls in exceptional condition will be considered *if space permits*. Out-of-season items will be pulled from the sales floor.

Please be extremely selective when choosing your items to sell. Do not wait until the last minute to gather and prepare your items, as this often leads to oversights. Damaged items hurt our reputation in the community as well as hurt overall sales. **Repeat, multiple, or deliberate instances of items in unacceptable condition will result in a seller being unable to sell again.**

Here are a few guidelines to keep in mind:

**\*\*Items not in working order will not be accepted. We will be testing electronic toys, baby equipment and other battery-operated items upon seller check-in to ensure batteries are included and the item is working properly.**

**\*\*Puzzles must contain all pieces.** You will need to count your pieces prior to bringing them to the sale. (Also, indicate on your tag that all pieces are present.)

**\*\*Lego sets must be complete unless otherwise noted on the tag.** You will need to verify the pieces against the list included in the instruction manual. Also, make sure and pair the correct instruction book with the correct set.

**\*\*Car seats must not be expired.** Please check the date before placing item in the sale. All expired seats will be pulled from the sales floor.

**\*\*"Promotional" shirts (i.e., freebie shirts given as business advertisements, Vacation Bible School shirts, etc.) will NOT be accepted.**

**\*\*VHS Videos will NOT be accepted.**

**\*\*We are not able to accept recalled items, including drop-side cribs and rock and plays.**

Information on recalled toys can be found at: [www.cpsc.gov/en/recalls](http://www.cpsc.gov/en/recalls)

## **Preparing Your Items for Sale**

Launder and iron clothes if necessary. Clean all toys and baby equipment. Stained and dirty items will be rejected.

Small items such as shoes, socks, and small toys need to be placed in a Ziploc bag with the tag taped on the outside of the bag (may use safety pins to ensure tag is not separated from the bag during the sale).

Sort your clothing by gender and size. Our racks are labeled by size (Newborn, 3 Months, 6 Months, 9 Months, 12 Months, 18 Months, 24 Months, 2T, 3T, 4T, 5, 6, 6x, 7-9, 10-12, 12-14, Juniors). Maternity and Juniors should be sized XS, S, M, L, XL, XXL.

When you drop off your items, we will ask you to help place them on the sales floor while we continue pre-checking your items. To ensure that your drop off goes smoothly and quickly, please bring your items sorted by gender and size, and rubber band the same sizes together.

Hang all of your clothing on hangers. Layette items can be packaged in Ziploc bags and can be combined to form sets of 2 or more. The same can be done for items like socks. Clothing items sell best when placed on a hanger and hung with their respective size.

Two-piece sets or multiple items being sold together go on one hanger and should be secured together to ensure that the items are not separated during the sale. For example, place the top on the hanger and pin the second item with two safety pins to the shoulder of the top or directly to the hanger.

Tags should be cut out and pinned with a safety pin to the upper front right corner of the garment. The hook of the hanger should be turned away from the tag as shown in the accompanying illustration. When looking at the hanger it should resemble a question mark. **If your hook direction or tag placement is incorrect, you may be asked to correct it during check-in.** To ensure that your tags do not come off during handling at the sale, please place a piece of clear tape over the safety pins on the tags.

**Please DO NOT tape over the barcode of a tag.**

All tags are cut along the "dotted" line at checkout, and tags that are taped incorrectly become difficult to remove, sometimes ripping and becoming hard to scan. Please keep all pins and tape above the "dotted" line.

Safety pins only. No straight pins.

Tagging guns may be used; however a few guidelines must be followed. Tags should be affixed to clothing at the seam under the left sleeve or at a seam on the left side of the pants (the right side if you are looking at the item). You **MUST** double tag your items to prevent them from being easily broken off; simply click your tagging gun twice in the same place to get two fasteners in the same spot.

**Exceptions:** For raincoats and formal wear (or any item that would be damaged by pin holes or tagging guns), you may attach the tag to the clothing tag inside the garment. This method should prevent damage to these items and is only accepted on merchandise that could be affected by pins.

When taping tags to items only clear packing tape is allowed (no masking, painter's or duct tape). The painter's tape varieties come off too easily and can lead to separated tags. The exception would be paperback books, boxed or painted puzzles, or boxed games where the clear tape may damage the material or color when pulled off.

For keeping shoes together, there are a couple of good options. You can place them in a Ziploc bag with the tag attached to the outside with a safety pin and a piece of tape over the pin. You can also attach the shoes with a zip-tie through the laces (or through the loop at the back of many pairs of shoes) and then attach the tag with a safety pin around a secure spot and secure with a piece of tape over the tag.

The consignment sale is not responsible for parts that become separated during the sale or lost/stolen items. However, we will do everything possible to prevent misplaced items and separated tags.

### **Pricing and Tagging**

Items should be priced in .50 cent increments. Any items priced differently will be rounded down to the nearest .50 cent increment. For example, an item marked \$1.99 will be sold for \$1.50. Minimum price for any item is \$1.00.

It is to the benefit of everyone (you, volunteers, buyers and other consignors) that you include detailed descriptions (size, brand, color, type) of your items on your tags. A detailed description on the tag will deter theft and help identify a missing tag should the tag fall off during the sale. **You must include a size on clothing tags and shoes** so our shoppers and volunteers don't have to hunt for one inside the piece of clothing. **If your tags do not contain sizes upon checking in, you will need to write them in before they will be allowed out on the floor.**

Saturday is half off day. If you want the item reduced by 50%, check the "Yes" box in the "discount" field when entering in MyCM.

If you wish to donate your unsold items to charity at the end of the sale, check "Yes" in the box in MyCM that indicates "donate." These items will be donated to either Creekside's Teen MOPS ministry or to Whispering Hope, both of which serve young moms and their babies. The red dot that appears on your tag indicates that the item is to be donated if unsold.

In order to print your tags, log in to MyCM by going [www.myconsignmentmanager.com/creekside](http://www.myconsignmentmanager.com/creekside). This will ensure that you do not need a print code.

Please ensure that your tags are legible and that the barcode is crisp and clear; tags with faded or damaged barcodes will not scan at checkout. If your tags are damages or faded, please re-print your tags and re-tag your items.

## **Drop-Off and Pick-Up**

Drop-off times can be scheduled through MyCM. They will be Wednesday, August 7 (evening hours/time to be determined) and Thursday, August 8 from 9:30 a.m. until 12:15 p.m. No exceptions!

As stated in the sorting section, consignors will be asked to help place items on the sales floor.

Consignors will be required to sign a Consignor Agreement at drop off which states that Creekside is not responsible for lost or stolen items and that all unsold items not picked up during pick-up times will be donated to charity.

Unsold items may be picked up from 4:30 - 6:00 p.m. on Saturday, August 10. To make a pick-up run in a timely manner, we suggest last names of A-M pick up from 4:30 - 5:15 p.m. and N-Z pick up from 5:15 -6:00 p.m.

We will not hold unsold items past Saturday, August 10 at 6:00 p.m. At this time, unsold items will be sent to charity. We do not have the space to store items for a later pickup.

If you have any questions, you may email [mopscs@creekside.net](mailto:mopscs@creekside.net). Thank you for consigning with us! We look forward to seeing you at the sale!
